

a 2005 0102

The invention refers to medicine, namely to neuropediatrics and pharmacology.

Summary of the invention consists in that the medicinal remedy contains pantogam, calcium glycerophosphate, potassium orotate, lipoic acid, coenzyme Q<sup>10</sup>, prednisolone, retinol, ergocalciferol, tocopherol, cyanocobalamin, folic acid, pasteurized nut oil, in the following ratio of ingredients:

pantogam	2,20...2,70 g
calcium glycerophosphate	2,50...3,50 g
potassium orotate	2,20...2,50 g
lipoic acid	0,15...0,25 g
coenzyme Q <sup>10</sup>	0,15 g
prednisolone	0,05...0,10 g
retinol	12000...17000 IU
ergocalciferol	12000...17000 IU
tocopherol	0,40...0,60 g
cyanocobalamin	0,003...0,005 g
folic acid	0,01...0,02 g
pasteurized nut oil	90,0...100,0 ml.
